Safety Information
It is advisable to undertake a risk assessment, with particular focus on manual handling procedures. Wear appropriate gloves and coveralls to shield skin from abrasions. If shaping the product, it is essential to factor in the potential production of dust. To mitigate this, it is vital to either suppress the dust at source or employ effective extraction methods. We strongly recommend the use of appropriate respiratory protective equipment (RPE), specifically filtering facepiece class 3 (FFP3) masks, alongside adequate eye protection to guard against dust.

Recyclability
100% of the product can be recycled. If unsure, contact your local governing body/council for more information.

Sustainability
The embodied carbon for A1-A3 (production stage) as defined in BS EN 15804 is 13.2kg CO_2 eq/unit.

Delivery
Delivery within 2-3 business days. Bespoke items also available on request.
